

Dear Residents,

I am MARGIE LOVE.

I have lived in North Miami Beach, for 35 years and I am a candidate for City Commissioner, Seat #3.

I ran for a City Commission seat in the last four elections. Each time I ran for office, it was at my own expense; never accepting campaign contributions.

My parents taught me the work ethic. In nearly five decades, I have missed only one day of work.

They also taught me about service. We fed the homeless at our home and at the Camillus House.

I used my experience as a crime victim to stand up and fight against crime in our city. I have always been a leader, not a follower. I started RAPP (Residents' and Police Presence) and held monthly meetings with crime prevention experts from all over south Florida. Residents from all of North Miami Beach benefited. Dinner was served at our meetings, with the help of a partnership I established with local businesses.

I have honored Law Enforcement from our city and all over South Florida, on designated police holidays.

I assisted our police department with achieving and keeping their prestigious accreditation.

I promoted for the public safety 2000 bond issue. It resulted in the construction of our new police station.

As block captain, I continue to be the neighborhood crime watch Matriarch of my community.

I also began a branch of Youth Crime Watch. I marched nearly a thousand students, surrounded by multi-agencies of police and media presence, to raise awareness to "stop the violence" in our schools.

I held monthly meetings to teach the children how to be safe and had them fingerprinted with DNA kits.

The crime prevention experts were a part of our meetings and field trips.

I marched both Neighborhood Crime Watch and Youth Crime Watch members in our city's holiday parades. I brought Tropical Chevrolet representatives with their brand new Corvettes to parade with us.

When I reached out to Governor Rick Scott, he gladly came into our city to honor our police department. Two mayors, a local commissioner, our city manager and entire council, school officials and three local police command staffs attended. It was the students' first opportunity to be a part of a positive press conference, with media presence.

I live in a culturally diverse neighborhood and have always embraced cultural diversity. When I see a need, I help. I wrote and facilitated a Saturday school program to teach Hispanic and Haitian families how to help their children to be successful in school from an early age. I co-chaired "Hearts to Haiti" and helped students to raise \$6,000 in two weeks, which we sent to benefit earthquake victims in Haiti.
